## ***I. INTRODUCTION AND HISTORICAL INFORMATION***

I-REACH 2 Inc. was founded in 1999 as a day support and employment program. During our 20 years of practice we have went through a couple of company name changes, purchased group homes, and finally in 2018 was able to purchase a permanent home for our community integration, community employment, and administrative offices. Throughout the varies stages of our nonprofit lifecycle we have maintained our commitment to put the people we support at the heart of everything we do. Our organization is led by a dynamic, progressive, and forward-thinking leadership team and board of directors

I-REACH 2 Inc. has been on the forefront in our implementation of new federal regulations and standards that dictate the types of settings in which Medicaid Waiver services may be delivered in. In addition, these regulations call for increased choice and decision making on the part of the individual receiving supports. We have revamped, redesigned and restructured our entire program to meet these standards and to continue our mission focused work. But there is much more work to do and this strategic plan will lay the groundwork and provide a roadmap for further innovations in the disability services industry. The majority of participants served by I-REACH 2 Inc. are funded through the State Division of Developmental Disabilities via what is known as the Medicaid Waiver program. Our other revenue sources include DVR, fundraising, private and public foundations and United Way. We do provide supports for individuals who elect to private pay.

I-REACH 2 is one of several internationally certified and accredited CARF recognized (Commission for Accreditation of Rehabilitation Facilities) service providers in the State of Wyoming and across the world. Many of our services have been accredited since June of 2000 when I-REACH Inc. first received a three-year accreditation. We had our strongest survey to date in June of 2015.

This Strategic Plan is structured around 5 major goal areas with several objectives for each goal. Input was received through a variety of sources such as:

- Our participants
- Stakeholders, including case managers, guardians, business's etc.
- I-REACH 2 Employees and board members.

Our 5 major goal areas are:

1. Ensure stable and reliable funding
2. Recruit and retain professional and dedicated employees and volunteers
3. Maintain and strengthen our presence in the community with identified stakeholders
4. Provide the best possible services to our participants
5. Maintain safe, efficient, and functional facilities, company vehicles, and technology
